Victoria Belova

Accountant

I am an accountant with over 10 years of experience in accounting and taxation, gained in both Poland and Belarus. Currently, I work at an accounting office in Poland, where I actively support the accounting processes for clients – including posting documents, handling domestic and international settlements, cost accounting, and preparing financial statements. My previous experience in the tax administration enables me to better understand tax regulations and apply them effectively in practice. I continuously develop my professional skills through courses and training organized by the Association of Accountants in Poland. I am a reliable, independent, and committed professional, ready for further development and new professional challenges.

EXPERIENCE

January 2026 - Present

Ergotax sp. z o.o., accounting office, Poland
Accountant

- Handling the full accounting cycle - from verification and posting of documents to reconciliation of accounts and preparation of data for month-end closing.
